Certificate

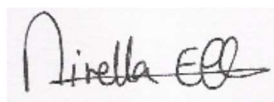

Dear Sir/Madam,

I am pleased to certify that **Dr. Pranay P. Morajkar (from Goa University, India)** worked in my groups as a visiting Postdoctoral-Research Scientist in the Department of Chemical Engineering at the Khalifa University of Science and Technology (Sas al Nakhal Campus), Abu Dhabi, U.A.E from February 2019-June 2020. His position was funded under the CIRA-2019 award (external researcher fund) on project titled "Fuel formulation for clean combustion: Simultaneous reduction of particulate matter, NO_x and CO emissions" under the co-supervision of Dr. Abhijeet Raj and myself. His stay at Khalifa University has been scientifically highly productive and has led to several high quality research publications in international peer reviewed journals of high impact.

I wish Dr. Pranay P. Morajkar the very best for his future endeavors and look forward to collaborating with him on joint research projects and activities.

Thank you.

Regards,

A handwritten signature in black ink, appearing to read "Mirella Elkadi", written over a light-colored rectangular background.
