NOTE

Sub:- Request for Organizing Drupal Camp at Goa University.

Drupal Community has been organizing events in India over the last 10 years. Drupal Camp is a community event which takes place across the globe including some major cities in India such as Delhi, Mumbai, Pune, Bangalore, and Hyderabad. Its main focus is on knowledge sharing through some sessions and code sprints. The companies who sponsor this event get a booth through which they can brand their company image and also recruit potential candidates.

This year also they are planning to conduct another Drupal Camp in Goa on 2nd, 3rd, and 4th March 2019 in collaboration with the Department of Computer Science & Technology, Goa University.

This is a great learning, networking and placement opportunity for the students in the State of Goa as expert speakers and sponsors would be present and conduct job interviews.

It is expected that around 200-300 people will be part of this event. The event would require the use of the Auditorium, 3 classrooms (capacity of 40-80), open area to set up around 5 booths and reception area and corridor space for 5-7 booths.

All expenses would be borne by the Drupal Community.

Kindly sanction the above.

Submitted for approval.
