**Venue: Chemistry Seminar Hall in Faculty Block-E
Inaugural function at 9:00 am**
Professor Varun Sahni, Vice-Chancellor, Goa University
will preside over the inaugural function

About T4E 2019

Technology for Education (T4E 2019) is an IEEE International annual flagship conference, which will be in its 10th edition in 2019, with first two conferences having organized by IIIT Bangalore and the IIT Bombay in 2009 and 2010 respectively. Last year, T4E 2018 was held at IIT Madras. The objective of the Technology for Education conference is to bring together all teachers interested in promoting learning and teaching through the use of information and communication technology (ICT), at all levels of education. The conference provides a forum for researchers and practitioners from all over the world to discuss new and scalable methods of teaching and learning using appropriate technology and pedagogy, both for classroom teaching as well as using MOOC's platform. During the conference, there will be five keynote lectures, paper/poster presentations, and demos. The conference details are available on the website (<http://t4e2019.unigoa.ac.in>).

Access to the conference

Since the conference is being held on the University campus, we would like to provide free access to all technical sessions to interested faculty members and research students. However, for food, etc. they may have to buy coupons if they have not registered in advance.

Looking forward to University faculty and student participation in a conference organized on the campus. The snapshot of the program is enclosed for reference.

V. V. Kamat
LoC Chair T4E 2019
